Slow Dance

Michael Peterson

Do you remember our first dance together?
I prayed for a slow song, it felt like forever
Then I made my move, you smiled as I reached for youI had this feeling that you would be my girl
And as the band played, 'Welcome To My World'
We both had to laugh at the song fate had chose forYou and me 'cause every word fit so perfectly
And every feeling we felt is still true
Life is a slow dance with youEach moment without you is one moment too long
'Cause every love song that I hear is our song
Who would have believed after all this time it's stillYou and me 'cause every word fit so perfectly
And every feeling we felt is still true
Life is a slow dance with youOh, it's just me and you
Together we're right where we're meant to be
And I'm sure that I'll say when my time is through
Thanks for the slow dance with you, oh, with you
