One Angel

Stir

You walk into the room with a smile
Only heaven knows what you do to me
And there's no tellin' why you've come at all
'Cause I can't be seen or heard
As the seconds fly, minutes goSomething crazy is comin' over me
It's you I'm missin' and I thought it'd be easier
Like sunshine chasin' clouds awayShe walks in the room with a smile
Only heaven knows what she's bringing me
And there's no tellin' why she comes at all
'Cause I can't be seen or heard
As the days fly, and the years goSomethin' crazy still comin' over me
She's one hit, one smile, after all I'm to blame
But I want more than I thought I would
But then I guess, she came straight into my heartNow she floats just like the angel from up above
One angel, watching over me
She's my fallin' angel and we're in love
One angel, what you do to me?One more, been chasin' her day long
And now here I go out again
Said, I'd be there, 'cause I got nowhere to go
I wanna be there, 'cause I got no oneNow she floats just like the angels from up above
One angel, watching over me
She's my fallin' angel and we're in love
One angel, what you do to meOne angel, she's my one angel
She's my one angel
