

# One Angel

## Stir

You walk into the room with a smile  
Only heaven knows what you do to me  
And there's no tellin' why you've come at all  
'Cause I can't be seen or heard  
As the seconds fly, minutes go  
Something crazy is comin' over me  
It's you I'm missin' and I thought it'd be easier  
Like sunshine chasin' clouds away  
She walks in the room with a smile  
Only heaven knows what she's bringing me  
And there's no tellin' why she comes at all  
'Cause I can't be seen or heard  
As the days fly, and the years go  
Somethin' crazy still comin' over me  
She's one hit, one smile, after all I'm to blame  
But I want more than I thought I would  
But then I guess, she came straight into my heart  
Now she floats just like the angel from up above  
One angel, watching over me  
She's my fallin' angel and we're in love  
One angel, what you do to me?  
One more, been chasin' her day long  
And now here I go out again  
Said, I'd be there, 'cause I got nowhere to go  
I wanna be there, 'cause I got no one  
Now she floats just like the angels from up above  
One angel, watching over me  
She's my fallin' angel and we're in love  
One angel, what you do to me  
One angel, she's my one angel  
She's my one angel
