

Never Far Away

[Chris Cornell](#)

You are the road that I will travel, you are the words I write
You are the ocean I will swallow, you are the wind I ride
You are the cause to keep my head up high, I'll never say goodbye
You gotta know I'll stay beside you right till the day I die I don't want to change anymore
I've already paid
I don't have to pray anymore
Because my soul has been saved And now whenever I come, whenever I go
No, you're never far away, far away
Whenever I come, whenever I go
No, you're never far away, far away
Whenever I come, whenever I go
No, you're never far away, far away, never far away You're the blood that's in my veins, you're my second skin
I'm a feather on the wind, you will bring me in
Every heart should have a beat, every night a dream
Every king should have a queen, every saint a sin I don't want to change anymore
I've already paid
I don't have to pray anymore
Because my soul has been saved And now whenever I come, whenever I go
No, you're never far away, far away
Whenever I come, whenever I go
No, you're never far away, far away
Whenever I come, whenever I go
No, you're never far away, far away, never far away When I go hope you make sure I don't break
Gimme life inside of heaven's gates, I know
It's forever, it's forever And you taught me how to live like blood comes first
Gave me definition for the worst, I know
That there ain't no space between you and me Whenever I come, whenever I go
No, you're never far away, far away
Whenever I come, whenever I go
No, you're never far away, far away
Whenever I come, whenever I go
No, you're never far away, far away, never far away Far away, far away
