End

Bride

The sun shined through poking holes in the sky
Like cigarette burns on the bedsheet
Sound the horn step down with a shout
The earth and the sun are gonna burn outTil the end
Til the end of the world I'll be with you
Til the end
Til the end of the world I'll be with youSold her soul to pay the rent
And the baby won't stop crying
Take my life before i take it myself
Because today she feels like dyingTil the end
Til the end of the world I'll be with you
Til the end
Til the end of the world I'll be with youShe drops acid to find god
Falling angels roaming through her headHe has a handgun he calls Christ
Say they like talking with the deadThey Say, they Say, they Say, they Say
They Say, they Say, they SayLooking at the ceiling when she saw the sky
Saw a door open the light burned her eyes
Spirit moved through the mulberry trees
Hold onto jesus don't hold onto meTil the end
Til the end of the world I'll be with you
Til the end
Til the end of the world I'll be with you
