

# Timeless

## Nadjiwan

When I feel all alone  
A million miles away from home  
I just close my eyes and know you're still loving me  
Now I no longer feel alone  
This time has only made us grow stronger  
Now it's touchable  
And I wanna live in this moment  
Forever  
And I wanna play this scene over and over and over

Chorus:

Like the river will run  
This love will always be strong  
When you're here in my arms  
I never want it to end  
When I look in your eyes  
Somehow I realise  
That I am truly blessed  
Now that you've made this moment timeless

In the heart of the night  
I watch you sleep your peaceful dream  
Your body's soaked in the pale moonlight  
There's nowhere else I'd rather be tonight  
And I wanna live in this moment  
Forever  
And I wanna play this scene over and over and over

Chorus

And now I know  
That your beauty's gonna live forever  
In my soul  
Chorus
