

Together

Tyrone Wells

There are places
We have been and where we will go
Open spaces
When we get there, we will know

Take my hand now
Walk with me into the unknown
I guarantee you
We will never be alone

Together, together, together
Until the end
Together, together, together
Until the end

Let's explore this
World of wonder as we are led
We are free to
Just embrace the steps ahead

Together, together, together
Until the end
Together, together, together
Until the end

Together, together, together
Until the end
Together, together, together
Until the end
