Wave Wet Sand

Ace Of Base

You are as reliable as a painting
In wave wet sand
I look in your eyes and I can't see a thing
That usually means attraction to me
I've read all the books about love I could find
And I've found not one, no, not one word 'bout mine
'Cause you are reliable like a painting in wave wet sand
You're coming and you're going like the water you never end
'Cause you are reliable like a painting in wave wet sand
And I am just another piece of an island in reach for your hands
Feel my doubts when you are in my arms
Darling, if you know that it's love and not charm
You must tell me so or go elsewhere to hunt
'Cause you are reliable like a painting in wave wet sand
You're coming and you're going like the water you never end
'Cause you are reliable like a painting in wave wet sand
And I am just another piece of an island in reach for your hands
Your love
I am just another piece of an island
I am just another piece of an island
I can?t close my ears when I hear that you call
I don?t want to fear every tear that could fall
I?ll go on my own, and pass people with doubts
My goal is to find just a piece of your love
Your love is, your love is like the water
Your love is, your love is like the water
Your love is, your love is like the water
Your love is, your love is like the
I am just another piece of an island
I am just another piece of an island
I am just another piece of an island
I am just another piece of an island
'Cause you are reliable like a painting in wave wet sand
You're coming and you're going like the water you never end
'Cause you are reliable like a painting in wave wet sand
You're coming and you're going like the water you never end
Reliable like a painting in wave wet sand
