

Lights Out

Frost

As my world gets small
I evolve in this red liquid light
While my thoughts grow tall
The outsider sings to me at night
So I drink it in
My life is running with the tide
Love me outside in
Joy with every kick I try
You'll be fine
Life of mine
Lights out, lights out
I just want the chance to see before
Lights out, lights out
Lights out, lights out
I just want the chance to be before the
Light's out, light's out
Such a sad sound woke me up
It sounded like such pain
And the voice where that sound came from
Never sang to me again
So my world grows colder
I find it hard to understand
Feel my thoughts grow small
I can't see my hands...Hushabye
Don't you cry
Dead of night
I think I must be dreaming
I close my eyes
Sleep tight
