

Kill Me Kate

Star Screa

I wont complete you
I wont think for you
Im not your antidote to pain
But I really wish that I was
I wont fill your void
I wont be your boy
Im not the one to make you change
But I really wish that I couldOh I really wish that I couldOh No I wont show you what you cant find yourself
Oh No Im more than mirror to save yourself
Oh No Without me you could never see yourself
Oh No Im more than mirror to save yourselfI wont complete you
I wont think for you
Im not the one that you can blame
But I really wish that I was
I wont fill your void
I wont be your boy
Im just some time for you to waste
So you might as well kill me KateOh you might as well kill me KateOh No I wont show you what you cant find
yourself
Oh No Im more than mirror to save yourself
Oh No Without me you could never see yourself
Oh No Im more than mirror to save yourselfKill me Kate
I cant wait
Tear my skin
I cant win
Oh No I wont show you what you cant find yourself
Oh No Im more than mirror to save yourself
Oh No Without me you could never see yourself
Oh No Im more than mirror to save yourself
