Cover Your Eyes

Straylight Run

Cover your eyes
And reach into your ears
Pull out what you've heard
And replace it with anything
Add to your body
Well take some weight
Cut it and fill it in
Whatever it takes
Aaaohh
To be some sort of beautiful
Phony and frightening
Some sort of beautiful
Phony and frightening
Oooo we must care for these little ones
We must keep them safe
From the horrible ideas
And the people who have them
They're too young
For wondering
Too young for wishing
To be something other than what they were meant to be
Tell them theyre beautiful
Perfectly placed
Tell them they're beautiful
Perfectly placed
Love and be loved
Take air into your lings
And turn into the most beautiful sound you can make
Oooahhh
Ooh ohhh oahhh
Cover your eyes
And reach into your ears
Pull out what you've heard and replace it with anything
