

Bite My Lip

[Shania Twain](#)

I gotta a 9-5 that seems like it never ends
I gotta touchy boss that wants me in his hands, yeah
And no is a word that he doesn't understand
He says, "Baby can you work with me 'til 9?"
I know he knows that I could use the overtime, yeah
But I can tell he's gonna hand me another line I gotta bite my lip, keep it inside
Gotta bite my lip, just let it ride
I gotta bite my lip, watch what I say
Gotta bite my lip, just walk away Yeah I'm rushin' home, I gotta hot date tonight yeah
I got a chilled champagne for dinner by candle light
He's gonna be here soon and everything'll be alright
I get a call and guess who's on the other line
I can't make it tonight, can we do it another time? Yeah
Oh what nerve, I'd like to give him a piece of my mind I gotta bite my lip, keep it inside
Gotta bite my lip and let it ride
Gotta bite my lip, watch what I say
Gotta bite my lip and walk away
