Just Between Us

A Telemetry

scrambled rhetoric
how it's spread so thin
innuendo overload
put's your faith in a spin

to be a follower
not to stand on your own
never to try never to walk alone

just between us
it's time for us to fly
just between you and I

just between us
it's time to come alive
just between you and I

obscured actions
take you by surprise
intentional smoke screen
will impede your drive

to be a martyr
to die slow for a cause always
to hide always set in pause

just between us
it's time for us to fly
just between you and I

just between us
it's time to come alive
just between you and I

sacrificed
one to many times
sanctified
all is left behind

just between us

it's time for us to fly
just between you and I

just between us
it's time to come alive
just between you and I
