Controller

Ben Macklin & Yota

Go ahead and rise above
See how far you get on top
Held down just to impair youWe know who's ahead of the game
You know who'll get the blame
You're in the grip of the controllerDo you really want it all back?
See how far you get on top
Held down just to impair youIt's the fear that you can't do right
See how you lose in your life
Cut down, they will impale youCan you really get it on track?
You tried to make it all stop
Time will tell how much they denied youYou just got burnt by the controller
You just got burnt, the controllerYou'll never know how to react
Your sucked to the very last drop
Time will tell what has been denied youAre you clear in your mind and sight?
Are you clear right out of your head?
Angry at the things that have failed youSo you want to get it all back
You tried to make it all last
Tied down to control youYou just got burnt by the controller
You just got burnt, the controllerGo ahead and rise above
See how far you get on top
Held down just to impair youWe know who's ahead of the game
You know who'll get the blame
You're in the grip of the controllerWe know who's ahead of the game
You know who'll get the blame
You're in the grip of the controller, controllerYou just got burnt by the controller
You just got burnt
You just got burnt by the controller
You just got burntYou just got burnt by the controller
You just got burnt
You just got burnt by the controller
You just got burnt
