One Solitary Life

Admiral Twin

Daylight falls too hard
I can't believe my eyes
What, what have I done?
Should've never lost control
I smashed away the good old days
And I can never go home
I wish that I couldTear out a page
Take back the words that got away
I'll take the blame for one solitary lifeCold fright, something's wrong
I thought it was my right
What, what have I done?
I can't mend what I've torn apart
I cut the line one last time
And now I've fallen too far
I wish that I couldTear out a page
Take back the words that got away
I'll take the blame for one solitary lifeNo excuse, no surprise
Morning has broken me down and cut me to sizeI wish that I could tear out a page
Take back the words that got away
I'll take the blame for one solitary life
One solitary lifeNo place left to hide
One solitary life
