

# One Solitary Life

## Admiral Twin

Daylight falls too hard  
I can't believe my eyes  
What, what have I done?  
Should've never lost control  
I smashed away the good old days  
And I can never go home  
I wish that I could Tear out a page  
Take back the words that got away  
I'll take the blame for one solitary life Cold fright, something's wrong  
I thought it was my right  
What, what have I done?  
I can't mend what I've torn apart  
I cut the line one last time  
And now I've fallen too far  
I wish that I could Tear out a page  
Take back the words that got away  
I'll take the blame for one solitary life No excuse, no surprise  
Morning has broken me down and cut me to size I wish that I could tear out a page  
Take back the words that got away  
I'll take the blame for one solitary life  
One solitary life No place left to hide  
One solitary life
