

Get Your Gunn

Marilyn Manson

Advisory - the following lyrics contain explicit language:

Goddamn your righteous hand I eat innocent meat the housewife I will beat
The prolife I will kill what you don't do I will
I bash myself to sleep what you sew I will reap
I scar myself you will see well I wish I wasn't me
I am the little stick you stir me into shit
I hate therefore I am Goddamn your righteous hand
Goddamn, goddamn, goddamn, goddamn Pseudo-morals work real well
On the talk shows for the weak
Selective judgements and goodguy badges
Don't mean a fuck to me I throw a little fit well I slit my teenage wrist
The most that I can learn is in records that you burn Get your gunn, get your gunn
Get your gunn, get your gunn Pseudo-morals work real well
On the talk shows for the weak
But your selective judgements
And goodguy badges
Don't mean a fuck to me Pseudo-morals work real well
On the talk shows for the weak
But your selective judgements and goodguy badges
Don't mean a fuck to me I am the VHS record me with your fist
You want me to save the world
I'm just a little girl Pseudo-morals work real well
On the talk shows for the weak
Selective judgements and goodguy badges
Don't mean a fuck to me Pseudo-morals work real well
On the talk shows for the weak
Selective judgements and goodguy badges
Don't mean a fuck to me Get your gunn, get your gunn
Get your gunn, get your gunn, get
