

Got It Good

Justin Moore

Woke up this morning
Got hit without warning
Little sunshine bouncin' off them big blue eyes
Started with pillow talkin'
Twisted sheets, fingers walking
Hell of a way to start the day
My oh my Yeah, this good old boy's sure got it good
Got it good
It's in your smile, in your kiss, in your eyes in your hips the way you move, woah
I try to tell you every day like a good man should
This good old boy's sure got it good
I got it good in the morning
Got it good late at night
Got a good thing goin'
Got it good, that's right
Turn down that kitchen light
Pop that cork, drink that wine
Right outta that bottle babe, I'll spin you around
White noise record playin'
Let's get it on, a little Marvin Gaye'n
In a minute or two, me and you will be bedroom bound Yeah, this good old boy's sure got it good
Got it good
It's in your smile, in your kiss, in your eyes in your hips the way you move, woah
I try to tell you every day like a good man should
This good old boy's sure got it good
I got it good in the morning
Got it good late at night
Got a good thing goin'
Got it good, that's right, yeah
Whoah, whoah, whoah, whoah
I got it good in the morning
Got it good late at night
Got a good thing goin'
Got it good, that's right, yeah
Well, this good old boy's sure got it good
Got it good
It's in your smile, in your kiss, in your eyes in your hips the way you move, whoah
I try to tell you every day like a good man should
This good old boy's sure got it good

I got it good in the morning

Got it good late at night

Got a good thing goin'

Got it good, that's right
