

# A Little Closer

## Group 1 Crew

If you opened my heart  
You'd see I don't have it all together  
If you take me apart  
You'd see the worst of me wants to get better  
But you're changing me, piece by piece  
Into who you're really calling me to be

There's a beauty and beast inside of me  
Who I am fighting, who I wanna be  
But through the rise and falls  
The roller coaster  
I, I, I get a little closer  
Like a child walking in their father's shoes  
I just wanna look a little more like you  
Everyday's another step forward  
I, I get a little closer

I, I get a little closer  
I, I get a little closer

Lord, I know that it's true  
You're gonna finish this work you started  
Even when I don't know and it's moving so slow  
Even when I feel nothing but broken hearted  
But you're changing me, piece by piece  
Into who I know that I am gonna to be

There's a beauty and beast inside of me  
Who I am fighting, who I wanna be  
But through the rise and falls  
The roller coaster  
I, I, I get a little closer  
Like a child walking in their father's shoes  
I just wanna look a little more like you  
Everyday's another step forward  
I, I get a little closer

I, I get a little closer  
I, I get a little closer  
I, I get a little closer

I, I get a little closer

All my days, every breath I take  
Won't you make me, shape me, into who you are  
All my days, every breath I take  
Won't you make me, shape me, into who you are

There's a beauty and beast inside of me  
Who I am fighting, who I wanna be  
But through the rise and falls  
The roller coaster  
I, I, I get a little closer  
Like a child walking in their father's shoes  
I just wanna look a little more like you  
Everyday's another step forward  
I, I get a little closer

I, I get a little closer  
I, I get a little closer  
I, I get a little closer  
I, I get a little closer  
I, I get a little closer  
I, I get a little closer  
I, I get a little closer  
I, I get a little closer  
I, I get a little closer
