

Hotel Arizona

Wilco

Hotel in Arizona
Made us all wanna feel like stars
Rental cars with tinted windows
Leave another number for me Even if I make it through
That's just something
That I have to get used to
That's just something
I have to get used to I feel some connection
Between you and me
Well I guess there's some direction
Maybe you can't see Even at the interview
That's not something
That I'm gonna get used to
That's not something
I'm gonna get used to Hello, can you hear me?
Hello, that's all there is, that's all there is I guess all this history
Is just a mystery to me
One more worried whisper
Right in my ear
