

# Black Don't Glow

## Bass Drum Of Death

Last night seem to miss my diss  
Fail to see the wall again  
And I'm not gonna take my wish  
Even though I try to pretend Any time you look you'll see me trying  
Every time I look you'll see me dying  
And i want to  
And it feels so wrong, now baby  
I don't need you  
Even black don't glow Local come and I'm on my face  
They know you see the wrong, the pain  
Not new to the tango days  
I know it's a longer way  
Any time you look you'll see me trying  
Every time I look you'll see me dying  
And i want to  
And it feels so wrong, now baby  
I don't need you  
Even black don't glow Any time you look you'll see me trying  
Every time I look you'll see me dying  
Any time you look you'll see me trying  
Every time I look you'll see me dying  
Any time you look you'll see me trying  
Every time I look you'll see me dying  
Any time you look you'll see me trying  
Every time I look you'll see me dying And i want to  
And it feels so wrong, now baby  
I don't need you  
Even black don't glow  
And i want to  
And it feels so wrong, now baby  
I don't need you  
Even black don't glow
