

Best of Me

Kid Rock

I can't sing like Marvin Gaye no
I can't play that grand piano
I never was at the top of my class
I never threw no touchdown pass
All I got's cut glass to stand on
'Cause I never planned on getting my hands on
No kind of cash or woman like you
That could last a whole life through
But now that you're here
It seems so clear Now I ain't got no southern mansion
And I ain't much good at slow dancing
I never swam the English channel
People they say I'm hard to handle
'Cause I'm like a candle in the wind
Where you end's where I begin
And I'll never win 'cause I'm good at losing
But thank the Lord I'm good at choosing
'Cause now that we're here
It seems so clear When the lights go down and the music plays
I feel like a king that can sing for days
I know some times that we don't always agree (We don't always agree)
They scream for more and the more I give
It takes a toll on the way we live
Please forgive me baby and try and see (Try and see)
Yeah try and see
Please try and see
But you get the best of me
(Ooh, you get the best of me) Now I didn't make no reservations
And I didn't plan no great vacation
'Cause I've been chasing raindrops falling
Running from love when it keeps calling
And I know you think I'm just playing the field
But let me show you girl what's real
'Cause I'm all in like a crazy gambler
And though I don't have all the answers
Now that you're here
It seems so clear When the lights go down and the music plays
I feel like a king that can sing for days
I know some times that we don't always agree (We don't always agree)

They scream for more and the more I give
It takes a toll on the life we live
Please forgive me baby and try and see (Try and see)
Yeah try and see (Please try and see)
Please try and see
That you get the best of me
(Ooh, you get the best of me) Oh, hm
When the lights go down and the music plays
I feel like a king that can sing for days
I know some times that we don't always agree (We don't always agree)
They scream for more and the more I give
It takes a toll on the life we live
Please forgive me baby and try and see (Try and see)
Yeah try and see (Please try and see)
Please try and see
That you get the best of me
(Ooh, you get the best of me) Best of me, best of me
You get the best of me
(Ooh, you get the best of me) Best of me, best of me
You get the best of me
You get the best of me
