## illegals

Here come the mountain, Here come the hill  
Here come the valley and the Shoreline still  
    I know 'em well, know well  
        Mongrel, on the hard sell  
        With a ?, hot assed, inkwell  
    Lord, But I, I can't leave with the blues  
    Through endless days, and endless nights  
        Spare my creator, scream for my rights  
        ? in the wishing well  
    Mongrel on the Hard sell, with a ?,  
        Hot assed, Inkwell  
    But I won't leave you with the blues no  
        Come down to ? (Wah-doo-day)  
        I'll buy you out  
    Gonna make you shake it Lord gonna make you shout  
    Gonna burn you gonna make you swell  
        Mongrel on a hard sell  
        with a ? hot assed inkwell Lord  
    But I can't leave you with the blues no  
        No no
