

# The Dance Class

## Old 97's

I'm lookin' out my window  
Well, all that I can tell is  
That's you over there  
In the dance class I'm peekin' out a window now  
It's late, gettin' dark out  
That's you right there  
In the dance class I'm wishin' I could leave my house  
But it's been years since I went out  
You're so far over there  
In your dance class I am in love with whoever you are  
Whoever you are  
I am in love with whoever you are I gotta sort of problem, see  
Please come to me  
How could you know?  
You were in the dance class I am the crazy man  
Hangin' out his window, wavin' his hands  
Tryin' to get you to notice me  
After your dance class I am in love with whoever you are  
Whoever you are  
I am in love with whoever you are I am in love with whoever you are  
Whoever you are  
I am in love with whoever you are Hang inside off the window ledge  
I'm here on edge  
Tryin' to make it with a beautiful girl  
That I got no chance with in the dance class In the dance class  
In the dance class  
Yeah, that I got no chance with in the dance class
