My Fish Half Dying

Los Paranoias

I just like you
My words are flying
and I'm trying, to get you
You look like me and I still like you
but its odd, I tell youLet me take you, some place outside here
You will like it, I feel it
Come sing with me
into your latte
no one does it,
don't be lateHere comes a train,
We cannot buy it
but we trying, not easy
I like your boots, I like your style
Its like my straint, I mean it
Your pants eat wool, my fish half dying,
We are just happy to eat itI really really need you to stay where you are
I wanna be in your picture so please just stun me
I really really need you to stay by my side, and I try
To give you something to smileYou lock my head into your planet
There's nobody but you in
and I feel great, it feels like silence
everybody is sleeping
Our friends are looking through the window
"It's a nice day," she says
So don't be blue and change that channel
It's a lie, you do itI really really need you to stay where you are
I wanna be in your picture so please just stun me
I really really need you to stay by my side, and I try
To give you something to smileI really really need you to stay where you are
I wanna be in your picture so please just stun me
I really really need you to stay by my side, and I try
To give you something to smileyeah yeah yeah yeah yeah
na na na, na na na
hey hey you do it
na na na na naHe wants you dead just dying
na na na, na na na
He wants you dead just dying
na na na, na na
