

Temperature

Tyga

[Chorus]

Yeah I know when you're outside, I could feel the temperature rise

Yeah I know when you're outside, I could feel the temperature rise

The temperature, temperature

Yeah I, I could feel the temperature, temperature[Verse 1]

I pick you up in a Bently truck, I'm outside

Hit me up when you need some downtime

Damn girl, it's about time

Off at 4, I want to see you around 5

Now I'm 4:45, I'll be on my way

Ya I'm on my way come outside

Baby girl, you're never that mine

I lost my watch and I still found time

Uh, girl you're hot and cold, that makes you warm

Let your ex-man stay in the storm

When you don't have to force it, it's a force

All I ever want is more

[Chorus]

Yeah I know when you're outside, I could feel the temperature rise

Yeah I know when you're outside, I could feel the temperature rise

The temperature, temperature

Yeah I, I say I could get you so high

You might die if you fall, yeah[Verse 2]

And what's left in the love if I gave you all of me, be patient

And when you need space, I give you a spaceship

Take all the space you need yeah

Face your freedom with the face

You still be mine

Before we lay we lie

I get you so wet, would you come clean, oh I

[Chorus]

Yeah I know when you're outside, I could feel the temperature rise

Yeah I know when you're outside, I could feel the temperature rise

The temperature, temperature

Yeah I, I say I could get you so high

You might die if you fall, yeah[Verse 3]

Uh, girl you're hot and cold, that makes you warm

Let your ex-man stay in the storm

When you don't have to force it, it's a force

All I ever want is more
And I cannot protect you when you flex so far away
I remember when I met you, the thought of sex was so far away
All I wanted is to talk to you
Thought it would be cool to tell me what I thought of you
You're radiant, you're vibrate
Intelligent, you know I'm the lightning
I'm more like lightning, your like fire is frightening[Chorus]
Yeah I know when you're outside, I could feel the temperature rise
Yeah I know when you're outside, I could feel the temperature rise
The temperature, temperature
Yeah I, I say I could get you so high
You might die if you fall
