

Supermagic (Silica Gel Remix)

Parralox

Verse 1

Call my number, I need a friend

Let's stay together, be there till the end

Pre Chorus

I go, go, go, go

I'm crazy for your love and it's starting to show

There's something you should know

Know, know, know

I got you on my mind

And I'm ready to go

Chorus

Supermagic is what you've always been to me

You're taking me so higher

Higher than a love should ever be

Verse 2

New sensation, I need it again

Supernatural, get out of my head

Repeat Pre Chorus

Repeat Chorus

Middle 8

Don't let me go, don't leave me, be mine tonight

There's no radio and no TV, it's gonna be alright

Repeat Chorus
