

In Your Face

Children of Bodom

GO! Don't be sheltered hear the noise
You are the answer their fucking poise
But, oh, my god, you're so fine
You seize the rogue and flesh divine One look at me, what do you see?
Another trophy, a living fucking dead beat
What you will always be
You're soft... no time to waste The discrimination animosity
Your fault to ignore reality
What you will a way to fight
Get one thing all there is to die I don't give a flying fuck motherfucker
I don't give a flying fuck motherfucker
I don't give a flying
I don't give a flying
I don't give a flying fuck One step away from having a fit
With the parting of my soul don't work with my shit
Did hear I'm crazy, yes, I do
So fuck the father and fuck you too Incoming! They want the world
I don't dare you... (bring it on)
It's my world you're really
Going to take it down in a minute If you've not done you'll look
Diversify your ranks
But the truth... seems like
A bitch slap in your face One look at me - what do you see?
Another trophy, a living fucking dead beat
Ask your eyes they descriminate
You're soft and no time to waste The descrimination animality
Your fault to ignore reality
What you will a way to fight
Get one thing all there is to die I don't give a flying fuck motherfucker
I don't give a flying fuck motherfucker
I don't give a flying
I don't give a flying
I don't give a flying fuck Incoming! They want the world
I don't dare you... bring it on
It's my world you're really
Going to take it down in a minute If you've not done you'll look
Diversify your ranks
But the truth... seems like
A big scythe in your face Incoming
