

Fire To Your Plain

[Tori Amos](#)

Shock, got the shock of my life
Just buckle up, girls, I'm stealing the night
From them steal the night
What they're down to, let's see in cold day light
I gotta get this right, I gotta get this right
'Cause she's up and I am low watching you
Watching her play this game
Yeah, she's bold, bold enough
To set fire to your plain, her fire to your plain
Pray, you can pray to your Jane
I put out the call but not to be saved
Called my Deviline kin with her yellow Astin' Martin
We gotta get this right, I gotta get this right
'Cause she's up and I am low watching him
Watching her play this game
Yeah, she's bold, bold enough
To set fire to his plain
She said, "Get in and set the SAT-NAV to hell"
Or would it be Purgatory
I gotta get this right, I gotta get this right
'Cause she's up and I am low watching you
Watching her play this game
Yeah, she's bold, bold enough
To set fire to your plain, her fire to your plain, her fire
Bold enough, her fire to your plain
