

# Take That Walk

## Be Your Own Pet

My lip bleeds in remembrance of you  
Thoughts tumble out- calling out for you  
My lip bleeds in remembrance of you  
Thoughts tumble out- calling out for you

Just fuck it up, forget about these longings  
Pains that ate my heart, hide them over, sit up.  
Just fuck it up, forget about these longings  
Pains that ate my heart, hide them over, sit up.

My throat swells in desire of you  
Useless sorry scream thinking there for you  
My throat swells in desire of you  
Useless sorry scream thinking there for you

Just fuck it up, forget about these longings  
Pains that ate my heart, hide them over, sit up.  
Just fuck it up, forget about these longings  
Pains that ate my heart, hide them over, sit up.

Just fuck it up, forget about these longings  
Pains that ate my heart, hide them over, sit up.  
Just fuck it up, forget about these longings  
Pains that ate my heart, hide them over, sit up
