

# Take It By Force

## Virtue

It's time we take it by force, there's no remorse  
It's time we take it by force, there's no remorse  
Because we take it by force We are the chosen, therefore exposin' the darkness  
So you can see the light  
We have authority over the enemy  
We gotta stand up and fight  
Time to take it by force It's time we take it by force, there's no remorse  
It's time we take it by force, there's no remorse  
Because we take it by force We gotta press our way and work while it's day, redeeming the time  
The power of prayer of men, is how we win  
Through the power of his mind So remember  
all your, all your confidence, reward  
The kingdom's at hand, so the time is now for us to take a stand It's time we take it by force, there's no remorse  
It's time we take it by force, there's no remorse  
Because we take it by force It's time we take it by force  
It's time we take it by force  
It's time we take it by force, there's no remorse Anticipation, great expectation  
The earth is longing for  
For the Sons of God, yea  
To bring to rest and manifest Thy kingdom come  
Thy will be done It's time we take it by force  
It's time we take it by force  
It's time we take it by force, there's no remorse There's no remorse, I've made my choice  
Keep the faith, press right on  
'Til kingdom come, 'til His will be done  
...
