

# Child

## Bad Veins

I'm holding my breath  
I'm leaving believe it  
To theres nothing left  
I'm leaving believe itI can't stip wonder why you wont change  
I can't stop wondering why you all change  
I may have grown, but I stayed the same  
And while your troubles are all running wild  
For better or worse I am still a child  
I'm charging through doors  
I'm leaving believe it  
Till there aren't anymore  
I'm leaving believe itI can't stop wondering why you all change  
I may have grown, but I stayed the same  
And while your troubles are all running wild  
For better or worse I am still a child  
I can't stop wondering why you all change  
I may have grown, but I stayed the same  
And while your troubles are all running wild  
For better or worse I am still a child
