Rain

Nick Drake

Thoughts of rain at sunset
Clouds of rainbow blue
Thoughts of sun on sand-dunes
Where the seabirds flewThis was our season and we said, it couldn't end
But my love left with the rainThoughts of leaves in autumn
Falling from the trees
Thoughts of hovering tree tops
Leading to the seaThis was our season, no lies and no pretend
But my love left with the rainThoughts of springtime rainfall
Touching flowers that bend
Thoughts of wind in willows
Days that never endThis was our season and we said it couldn't end
But my love left with the rainRain's the way you move now
Sun the way you seem
Flowers the, leaves the way you wonder
Flowers the way you dreamThis was our season but sorrow waited 'round the bend
For my love left with the rainThis was our season and we said it couldn't end
But my love left with the rain
