

Christmas Pics

Barenaked Ladies

Turkey is done, reviews are mixed
When's Mom gonna get that hearing aid fixed
Hold still, wait for the click
You're in this year's Christmas pics
Brother, we don't agree
About the government and where to put the tree
Hold still, wait for the click
We're in this year's Christmas pics
Flash bulbs and wine, and hold that smile
Everyone's here, we've flown for miles
Looks like, we've stood the test
And we're lookin' our best
Tears rolling down, my nephew's face
Santa's house can be a scary place
Hold still, wait for it
Hold still, wait for the click
We're in this year's Christmas
This year's Christmas
This year's Christmas pics
