Winter Skies (Remastered 2016)

Stratovarius

Taking a chance going
Into the great unknownFacing your fears and feel
What's on your mind
When all aloneFall into the sea
Soon you will be free
Into the deep you disappear
Down you go, descend belowDive deeper into the ocean
You will find more
About your emotions
As you go far beyond
Imaginary borderlines
Into the deep unknownA need to breathe, might drown,
You can't inhale
No one around, sliding down,
Time passes by
You cannot failAs light fades away
There's so much to gain
You're holding on, It's not in vainDive deeper into the ocean
You will find more
About your emotions
As you go far beyond
Imaginary borderlinesDive deeper into the ocean
You will find more
About your emotions
As you go far beyond
Imaginary borderlines
