

I Can't Say No

Vitamin C

I can't, can't, can't say no

I can't, can't, can't say no

I want what I want, when I want

I can't say no

It's a lot to say no, interrupt the flow

When a guy wants a kiss, who am I to resist?

Why should I be the one to miss out on the fun

Who am I to deny? No willpower inside

I cannot lie, no fault of mine

Although I tried, I don't know why

I can't, can't, can't say no

Everybody knows

I can't, can't, can't say no

Every time it shows

I want what I want, when I want

I can't say no

I'm afraid if I pass, I might end up last

On my glass of champagne, who am I to complain?

When the chocolates arrive, I do more than just eye

If there's nothing to lose, why should I refuse?

I cannot lie, no fault of mine

Although I tried, I don't know why

I can't, can't, can't say no

Everybody knows

I can't, can't, can't say no

Every time it shows

I want what I want, when I want

I can't say no

I can't, can't, can't say no

Everybody knows

Can't, can't, can't say no

Every time it shows

I want what I want, when I want

I can't say no

I cannot lie, no fault of mine

Although I tried, I don't know why

I can't, can't, can't say no

Everybody knows

Can't, can't, can't say no
Every time it shows
I want what I want, when I want
I can't say no
I can't, can't, can't say no
Everybody knows
Can't, can't, can't say no
Every time it shows
I want what I want, when I want
I can't say no
I can't, can't, can't say no
Everybody knows
Can't, can't, can't say no
Every time it shows
I want what I want, when I want
I can't say no
