

Metal Messiah

Iron Fire

Holy Satan begs he don't make no sense
Striving down there to recruit all of you
Do not live in sin or taste the fear again
Someone's coming back, fuck the almanacs
 Premonition say, ?Better step away?
Skeptics preach a lot watch in aftershock
 Heed the prophecies in your offices
Someone out the blue explodes into view
 The time is near, the day has dawned
 Be prepared for what's to come
 He's the Man, Armageddon
Walking through fire, Metal Messiah
 He's the One, the Father the Son
 Creator, destroyer, Metal Messiah
Heaven's in a state someone's at the gate
Crashing isn't cool he don't know the rules
 Stepping in he says time to rock the place
Like they've got a choice then all hell breaks loose
 Hell ain't ready for what he's got in store
Time you fuckers had change of management
 Better fornicate before it's too late
 Crank the power up as he detonates
 Never too late to extricate
 In the event die or repent
 He's the Man, Armageddon
Walking through fire Metal messiah
 He's the One, the Father the son
 Creator, destroyer, Metal Messiah
 You can pray to him auditorium
Buy the merchandise cheap at twice the price
 Rising up above with his decibels
He's come down to earth next to universe
 Never too late to extricate
 In the event die or repent
The time is near, the day has dawned
 Be prepared for what's to come
 He's the Man, Armageddon
Walking through fire Metal Messiah
 He's the One, the Father the Son

Creator, destroyer, Metal Messiah
Metal Messiah, Thy Kingdom come Thy will be done
Will be done
Metal Messiah, Thy Kingdom come Thy will be done
Will be done
Metal Messiah, Thy Kingdom come Thy will be done
Will be done
Metal Messiah, Thy Kingdom come Thy will be done
Will be done
Metal Messiah, Thy Kingdom come Thy will be done
Will be done
Metal Messiah, Thy Kingdom come Thy will be done
