Out Of The Blue

Serena Ryder

I can't believe that when you said that you needed me to stay with you
I can't believe that it was just what I needed to save me too
I'm in love with you
do do do do
I think you should love me too
Out Of The Blue
Out Of The Blue
In love with you
I can remember all the leaves of september crushing under my shoe
When we were walking baby, who needed talking
All my dreams coming true
I'm in love with you
do do do do
I think you should love me too
Out Of The Blue
Out Of The Blue
In love with you
What are you waiting for

My heart is like an open door
There's no use praying for
whats waiting for you
I adore you
I adore you
oh oh oh
I can't believe when you said you needed me to stay with you
When we were walking baby who needed talking
all my dreams coming true
I'm in love with you
do do do do
I think you should love me too
Out of the blue
Out of the blue
In love with you
What are you waiting for
My heart is like an open door
There's no use praying for
what's waiting for you
I adore you
