

# Local Construction

## Relient K

Days rollin' by like local construction  
The cranes try to scrape some more sky before quitting time  
Work on it, work at it, work, but its never done Days rollin' by like local construction  
I'm watching the tenements increase by increments  
Work on it, work at it, work, but its never done, no no Fix the car, fix the house, fix the flaws in my self  
Its never done, no no  
Its never done, no no  
Like local construction, its never done  
Days rollin' by like local construction  
The birds interrupt the cat while its packing it Work on it, work at it, work, but it's... Days rollin' by like local  
construction  
Like one big blue tarpaulin draped over scenery  
Work on it, work at it, work, but it's never done, no no Fix the car, fix the house, fix the flaws in myself  
Its never done  
Its never done, no no  
Like local construction, its never done  
Like local construction, its never done, no no I'll forgive my manners [?] stammers  
Jackhammers clambering on  
Fix the car, fix the house, fix the flaws in myself  
Its never done  
Its never done, no no  
Like local construction, its never done  
Like local construction, its never done, no no
