

Paper Romance (Garcy Noise Remix Radio Edit)

Groove Armada

Taste it in the air so sweet
Because they come alive
My visions of the city street
All of electrifyI feel your heat

I never wanna let you go
I rock too this beat

I'm standing here to let you knowYeah you can write me a love letter

But there's nothing to say

Don't wanna take a chance on your paper romance anyway

Yea you can rub it off much better

If you come awayMy golden heart beats for you

My golden heart beats for two

I feel my pain

The time it takes

For us to change

Its gonna happen anywayI feel your heat

I never wanna let you go

I rock to this beat

I'm standing here to let you knowYeah you can write me a love letter

But there's nothing to say

Don't wanna take a chance on your paper romance anyway

Yea you can rub it off much better

If you come awayYeah you can write me a love letter

But there's nothing to say

Don't wanna take a chance on your paper romance anywayYeah you can write me a love letter

But there's nothing to say

Don't wanna take a chance on your paper romance anyway

Yea you can rub it off much better

If you come away
