

Little Sister

Mark Erelli

(Mark Erelli & Polly Mathewson) My little sister makes more than you

My little sister makes more than you

Would you believe shes just 22

My little sister makes more than you

More than you

At 22

My little sister, my little sister You know shes gonna be a millionaire

You know shes gonna be a millionaire

I pay my rent with a gig and a prayer

You know shes gonna be a millionaire

Millionaire

Millionaire

My little sister, my little sister She called me up out of the blue

Said 'big brother have you heard the news

You know they hired me straight out of school

Im gonna move away from home get a place of my own

By a new set of wheels just to see how it feels

Fancy food, expensive wine, paid vacation on company time' My little sister makes more than you

My little sister makes more than you

What is this crazy world coming to

My little sister makes more than you

More than you

And you and you and you and you

My little sister My little sister makes more than you

My little sister makes more than you

My little sister makes more than you

My little sister makes more than you

More than you

More than you
