

# Any Love (2)

## Massive Attack

You go out every night as a single  
But you don't really know what to do  
You see someone you'd just like to mingle  
And you imagine that she's waiting for you  
Any love  
Any love that you feel is for real  
And each time that you use love  
You're gonna lose love  
There is no certain crowd that you run with  
Throw your passion away, let me run with  
He says hi, she says hi, and then I'm done with  
Though you never belong I'm waiting to see  
Any love  
Any love that you feel is for real  
And each time that you use love  
You're gonna lose love  
Any love  
Any love that you feel is for real  
And each time that you use love  
You're gonna lose love  
Any love that you feel is for real  
And each time that you use love  
You're gonna lose love  
Any love, love, love  
Love sweet love  
Any love, love, love  
Love sweet love  
Any love, love, any love  
Any love, love, any love that you feel  
Any love, love, any love you feel  
Any love
