

# On Our Own

## Obey the Brave

Here we go!  
On with the show.  
We're not slowing down just 'cause you shook the boat.  
It's all good, man.  
You failed and ran.  
The tide was strong but we dove and swam.  
Here we go!  
On with the show.  
We're not slowing down just 'cause you shook the boat.  
You know what, man?  
I take it back.  
You let us down but we're back on track.  
A mission failed.  
That ship has sailed.  
We're better off now on our own.  
But I ain't sinking.  
This got me thinking.  
We're better off now on our own.  
On our own.  
We're better off now on our own.  
On our own.  
We're better off now on our... We're better off now on our own.  
Enough, we call the shots.  
We'll cast the first stone.  
On our own.  
Whether you're ready or not, You'll reap what you've sown.  
On your own.  
When we'll be at our best, You better leave us alone.  
Leave us alone.  
A mission failed.  
That ship has sailed.  
We're better off now on our own.  
But I ain't sinking.  
This got me thinking.  
We're better off now on our own.  
On our own.  
We're better off now on our own.  
On our own.  
We're better off now on our... A mission failed.

That ship has sailed.  
We're better off now on our own.  
But I ain't sinking.  
This got me thinking.  
We're better off now on our own.  
On our own.  
We're better off now on our own.  
On our own.  
We're better off now on our own.  
On with the show.  
We're not slowing down just 'cause you shook the boat
