

# Love. Hate.

## Deez Nuts

This life, is what you make of it.

Love it or hate it this is the hand you were dealt.

What happens from here is up to you.

Keep your friends by your side and do the best you can do. Life is a test you've gotta take for yourself,

Knowledge is power and wisdom is wealth. Love: yourself, your friends, your family,

Love where you're at but fight for where you wanna be.

Hate: anybody who won't show you respect,

Just remember only give what you get.

Love: your mother, your father, the hood you claim,

Without these things you wouldn't be who you are today

Hate: anybody who crosses you fuck 'em,

Don't let your brothers and sisters cause they'll fuck you if you let 'em. This life is what you make of it.

You only get back what you put into it.

Nobody's ever gonna live a life for you,

But when things get fucked up real friends will be there for you. Life is a test you've gotta take for yourself,

Knowledge is power and wisdom is wealth. Let me hear you scream this shit so I know your feeling it. Love:

yourself, your friends, your family,

Love where you're at but fight for where you wanna be.

Hate: anybody who won't show you respect,

Just remember only give what you get.

Love: your mother, your father, the hood you claim,

Without these things you wouldn't be who you are today.

Hate: anybody who crosses you fuck 'em,

Don't let your brothers and sisters cause they'll fuck you if you let 'em.
