I Think I'm A Mother

PJ Harvey

You think you'll come over I'll give you my number
You lover supporter then give me your mother
You come take me home and take me to your doctor
You think you'll come over?I think I'm a motherRoll over, roll over and roll me a man-a
You lover, my lover you just roll me over
You give me your mother a man if I love her
I love her, I'll keep her, I better just keep herCome on and support her I said to the mother
She said you come over she said she'd support her
I love her, I kept her and then she just left and
Alone, I implore youI think I'm a motherNeed your mother
More than ever
Need your mother
Now, now, now
