Thinking too much

Noclu

I think I'm thinking too much
Is this what happens when you're falling in love?
I know I should let it be
This isn't how I am usually
But I'm losing sleep
Going over possibilities
I'm scared that I'm not what you need
I think I'm thinking too much
So long I've been waiting
For something to turn out right
Is it so wrong to be this easy?
I never thought that I could be without a fight
Ooh, I'm in love with you
What am I to do?
I think I'm thinking too much
Is this what happens when you're falling in love?
I know I should let it be
This isn't how I am usually

But I'm losing sleep
Going over possibilities
I'm scared that I'm not what you need
I think I'm thinking too much
It's so good to be this happy
I should be dreaming every night
But instead, I toss and turn in my bed
I'm restless every night
Ooh, I'm in love with you
What am I to do?
I think I'm thinking too much
Is this what happens when you're falling in love?
I know I should let it be
This isn't how I am usually
But I'm losing sleep
Going over possibilities
I'm scared that I'm not what you need
I think I'm thinking too much
