

Little Miss Sunshine

Carlton

You had me in a stupid kind of love,
you lit up every day.
Then you messed it up, so I've had enough,
and now you're just in my way. Little Miss Sunshine,
baby we're too bright
someone out there could use your light.
Little Miss Sunshine,
baby you'll be fine,
someone out there will treat you right. Keep me in the dark,
don't you light that spark.
I got a candle if you get so lonely.
Never worked out right,
thunderstorms each night,
now you wonder why I think you're crazy. Little Miss Sunshine,
baby we're too bright,
someone out there could use your light.
Little Miss Sunshine,
baby you'll be fine,
someone out there will treat you right.
Little Miss Sunshine oh Little Miss Sunshine
someone out there will be your light.
Little Miss Sunshine oh Little Sunshine
someone out there will treat you right, yeah. Sunshine go away,
don't you come another day.
If I wish, if I may,
maybe I won't see your face. (x2) You had me in a stupid kind of love,
you lit up every day.
Then you fucked it up,
so I've had enough,
and now you're just in my way. Little Miss Sunshine,
baby we're too bright,
someone out there could use your light.
Little Miss Sunshine,
baby you'll be fine,
someone out there will treat you right.
Little Miss Sunshine oh Little Miss Sunshine
someone out there will be your light.
Little Miss Sunshine oh Little Sunshine
someone out there will treat you right, yeah.
