Bring Love

Carlene Carter

He said settle down cowgirl
Let me tell how its gonna be
You and me, leave that suitcase packed for the sorrow
I'ma take you home to Tennessee to your family
Said my chariot awaits to carry me out of these gates
Of this prison we been living to long[Chorus]
Just bring love, thats all your gonna need
Bring love, bring your love to meI said lookey here cowboy
I always got a lot to say
And then I said, OK
We set our sights on the brightest star
Left L.A. headed east across New Mexico
And took it slowDust the paths of my past of life don't live to fast
I'll be going with my Joe lead the way[Chorus]He said settle down cowgirl
Let me tell how its gonna be
You and me, as the sun set behind us in Jackson
Two well traveled souls headed home
Back home, I said tell me again what I need to begin
To live a life in the light of your love[Chorus: x2]Bring love, thats all your gonna need
