Lize

Smog

They don't make lies
Like they used to
They don't make lies
Like they used to
You don't make lies
Like you used to
You don't make lies
Like you used toIn the old days
You took pride in your lies
You used to pay more attention
To details.
Not theses flimsy things
You hand me
NowadaysThey don't make lies
Like they used to
They don't make lies
Like they used to
You don't make lies
Like you used to
You don't make lies
Like you used toThey used to be stronger
They used to last longer
You used to pay more attention
To detail
Nowadays the lies that get made
Just fall apartThey don't make lies
Like they used to
They don't make lies
Like they used to
No you don't make lies
Like you used to
You don't make lies
Like you used toI used to be able
To live off your lies
