Colorado

St-Eugene

On my way to southern Colorado
I heard itâ€™s a nice place to settle and rebuild
When you walk with a heart in your hands

A heart thatâ€™s gray from all that builds around it
We tried to keep the walls from falling
But the damage was already done

If I ever get there in time
Colorado
If I ever make it alive
Colorado, until the end of time

On my way I can hear the wind blow
And above the horizon, vermillion clouds everywhere
But how can I cover my head
Iâ€™m holding the rest of you and me

If I ever get there in time
Colorado
If I ever make it alive
Colorado, until the end of time
